Technologies/Frameworks: Linux, GitHub, Bootstrap, ReactJS, React-Toolkit, NodeJS, Git

COURSEWORK / SKILLS

- DSA
- Software Engineering
- OOPS Concept
- Database Management System (DBMS)
- Operating Systems
- Artificial Intelligence
- Web Development

PROJECTS

Food Ordering Website | [JavaScript, ReactJS, React Toolkit, Bootstrap](#)

Sept. 2024

- Interactive user interface using React's component-based architecture ensuring dynamic updates.
- Fully responsive interface, ensuring compatibility across various devices.
- Utilized Redux Toolkit for efficient state management, enabling smooth handling of complex application functionality.

E-Commerce | [JavaScript, ReactJS, Bootstrap, CSS3](#)

Aug. 2024

- Implemented an Amazon clone using React replicating UI and cart system.
- Utilized React's component-based architecture to create reusable components
- Leveraged React's state management, Routers, and Hooks to efficiently manage dynamic product and cart states, enhancing user experience and scalability.

GoLocal | [JavaScript, ReactJS, Java, SpringBoot, SQL](#)

Oct. 2024 - 2025

- Developed a shop listing and search platform allowing users to search for shops and sellers to list their businesses.
- Built a secure backend with Spring Boot and REST APIs for managing shop and user data stored in MySQL.
- Created a dynamic frontend with React, featuring real-time search, responsive design, and seller registration functionalities.

INTERNSHIP

CodSoft Technologies

Jun 2024 - July 2024

Web Developer

Remote

- Created user-friendly and visually appealing web projects, including a calculator application, landing page, and portfolio website, using the latest frontend technologies like **HTML5, CSS3, and JavaScript**.
- Implemented responsive design principles to ensure compatibility across devices, enhancing user experience.
- Improved website performance by optimizing code, ensuring fast load times, and adhering to best practices for frontend development.

CERTIFICATIONS

- E-Commerce using React & JavaScript - Udemy
- Problem Solving using C - Udemy
- Core & Advance Java - YpSilon Technologies
- Meritorious Student 2024 - Piramal Pharma Solution

EXTRA CURRICULAR

- Community Coordinator of **Coder's club** in college campus.
- Volunteer at **NxtWave AI Fundamentals Workshop** in campus.
